OBJECTIVE

California State University computer science graduate pursuing a UI/UX Designer position to leverage strong creativity, analytical thinking. Experienced in designing user-friendly interfaces that elevate user experience and deliver measurable business impact.

EXPERIENCE

FREELANCE UI/UX DESIGNER

MAY 2023 - PRESENT

- Develop wireframes, user workflows, interactive prototypes, and high-fidelity UI mockups, ensuring visual consistency and WCAG accessibility compliance.
- Design and implement responsive, user-centered websites and complex application workflows that improve conversion rates, business growth, and revenue.
- Conduct user research including interviews, usability testing, A/B testing, and analytics review to inform UX strategy and data-driven design decisions.
- Improve website performance through UI optimization, image compression, lazy loading, and clean CSS and JavaScript architecture.
- Create intuitive navigation systems, responsive layouts, and scalable UI designs to enhance usability, accessibility, and user engagement.

CALIFORNIA STATE UNIVERSITY-BAKERSFIELD

- As part of curriculum requirements, developed web and mobile applications spanning global industries such as BeFit, Dog shelter, and Smart food expiration alert system

CLIENT & GLOBAL BRAND EXPERIENCE

Millini Olive Oil

Designed and developed a responsive, user-centered website and optimized workflows for an olive oil manufacturing company with operations in Croatia, resulting in a 300% year-over-year increase.

Croatian Swimming Federation

National governing body for swimming in Croatia and a member of the Croatian Olympic Committee; Led training sessions, physics-based performance analyses, and provided strategic feedback, demonstrating leadership and structured communication
